DETAILED ACTION

1. This is in response to the Applicant's arguments and amendments filed on January 15, 2008 in which claims 1-5, 7, -15, 17, and 19-22 have been canceled, claim 6 has been amended. Claims 6, 16, and 18 are currently pending.

Allowable Subject Matter

2. After a further search and thorough examination of the present application and in view of the applicant's arguments and Examiner's amendments claims 6, 16, and 18, renumbered as 1-3 respectively, are found to be in condition of allowance.

3. The following is an examiner's statement of reasons for allowance: the cited prior arts teach a first transceiver connected to a processor mounted on a first vehicle is enabled to communicate with a second transceiver mounted on a second vehicle; the processor is able to broadcast travel information of the first vehicle and to identify the presence of the second vehicle.

On the other hand, the Applicant teaches, inter alia, that the communicating means have receiver means for receiving from the other communication devices communication data including the identifiers of the communication devices which are their communication partners, communication data processing means for processing the received communication data if the identifier contained in the received communication data is the identifier of the particular communication device, and communication data interconnecting means for interconnecting, on the basis of the communication path, the received communication data to the communication device which is the communication partner or to a communication device intervening between

the communication partner and the particular communication device if the identifier contained in the received communication data is not the identifier of the particular communication device. These limitations, in conjunction with all limitations of the independent claim, have not been disclosed, taught, or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
